EDUCATION

University of Mumbai K.C. College of Enginnering, Thane

July-2020 to July 2024

B.E. Computer Science with Honours in Data Science

CGPA : 9.30

PROJECTS

1. Stock Analysis [python , streamlit]

- Website made with python streamlit library to pridict and analize future stock and showcase different currently working and trending stocks in the market.
- Project was made using yahoo finance API and online free database(deta.sh) for SaSS features.

2. Silicon Pulse Store [MERN Stack , JavaScript]

- Made a online computer e-commerce store leveraging the cutting-edge MERN stack, providing a seamless platform to buy and sell top-quality computer parts
- Implemented robust backend functionality by seamlessly integrating with a NoSQL database using MongoDB Atlas. Additionally, facilitated effortless and secure purchases through the RazorPay payment gateway API.

3. Location Gusser [JavaScript , ReactJs , Postgres]

- A website game using ReactJs and Google maps street view API to guess the the location from a random street view.
- Managed to find the correct street view cords and save them in SQL db to show them to user then remove and fetch them accordingly.
- Google metadata api were used to find the correct streetview cords and store them.

2. Kourse.com [MERN Stack , TypeScript]

- A Clone website similar to Udemy where a user can create his own courses as a instructor.
- User can enrolled to this courses as a student and track his/her progress throughout the course. And rate the course.

SKILLS

Languages and Frameworks

C++ (STL, DSA, OOPS)| **Python** | **HTML5** | **CSS** | **TypeScript** | **JavaScript** | **MERN Stack** (MongoDB, ReactJS, ExpressJS and NodeJS) | **Git & Github** (Version Control) | **Linux** | **Framework** (Tailwind CSS, Bootstrap, Material-UI) | **SQL** (Postgres ,RDBMS) | **Deployment** (Netlify, Heroku, Vercel) | **Developer Tools** (VS Code, PyCharm, Eclipse , Jupyter, Postman) | **DevOps Tools**(YAML , Docker , Kubernetes) | **CI /CD Pipeline**

CS Fundamentals

Data Structures | **Algorithms** | **OOPS** | **CN** | **OS** | **DBMS** | **LLD** | **HLD**

Other Skills

Team Work | **Time Management** | **Fast Learner** | **Learn to explore and learn new Technologies**
